

CILD CLEARING HOUSE

Report: 2015-2019

Italy Pro Bono Day

Luna Lara Liboni
Co - Coordinator

Who we are

Together we stand. For the rights of all.

Founded in 2014, the **Italian Coalition for Civil Liberties and Rights (CILD)** is a network of 39 civil society organizations that protect and expand the rights and liberties of all, through a combination of advocacy, public education and legal action.

Our main area of work are asylum & international protection, immigration, equality & anti-discrimination, justice, civil liberties in the digital age and security.

Areas of work

Centre for Legal Action

The Centre for Legal Action is one of core activities of the advocacy work of CILD, in the awareness that advances in legislation on human rights also require judicial support action - never disconnected from the work of campaigning & of communication.

It works through **4 main activities**.

1. Strategic Litigation

When communication and lobbying are not enough, we support the judgment actions with strategic litigation.

2. Access to information

In 2016 a FOIA was finally approved in Italy & we have been monitoring its implementation ever since.

3. Legal Information

We offer legal information support - via direct assistance or through our Know Your Rights guides (KYR).

4. Pro Bono Legal Advice via our Clearing House

We offer free of charge legal advice to NGOs & other civil society actors thanks to a great pro bono network.

Since 2015, CILD has been functioning as clearinghouse for the pro bono network facilitated by Pilnet and Pro Bono Italia.

The clearinghouse has successfully processed 85+ assistance requests.

5

Years as Clearing House
for the Italian Pro Bono
Network

85+

Requests successfully
processed

Law firms providing pro bono assistance

What Pro Bono Did

NGOs

- have been assisted with campaign risk assessment and management.
- have been helped out to obtain legal personality or recognition as Onlus.
- have received advice on litigation.
- have received support in translations
- have received support in individual cases

Legal research & memos on a variety of matters have been produced.

Research and reports have been professionally translated for international divulgation.

Individual cases (presented by NGOs) have been processed.

... And There's Room to Grow!

There is still much that can be improved. To start with...

We need to involve **more and more NGOs**.

This requires, amongst other things, the provision of formative events and networking opportunities to help the NGOs to get to know how pro bono works in theory and in practice.

At the same time, though, another important step would be to reach **more and more people**.

This means getting out the word about pro bono but also reaching and addressing directly individuals by providing advice and help on selected case.

MORE NGOS

awareness of pro bono potential

MORE PEOPLE

direct impact on individuals

... see you at 3pm!

Thank you for your attention.

Let's stay in touch!
